

## ***Safety Advisor Courtright, Ontario***

***With six manufacturing sites in North America, our client is the market leader in value added, controlled release fertilizer technology servicing the turf, horticulture, agriculture, consumer, and related markets. They lead these segments through marketing innovative, value added growth solutions with leading brands for the markets they serve.***

Reporting to the Manager, EH&S and working closely with the Operations Manager, Courtright, this position will be responsible for implementation of the Company EH&S management system.

### **Specific Responsibilities Include:**

- Responsible for maintenance, monitoring, continuous improvement and active participation in a comprehensive safety program.
- Coordinate all day to day activities related to safety and maintain a high level of safety awareness by having a consistent presence in the plants.
- Develop, provide and/or source training programs to ensure regulatory compliance and best management practices.
- Coach and advise the manufacturing teams of legislative requirements and responsibilities.
- Monitor the site's EH&S performance and report to the Manager, EH&S as required, and support initiatives for improvement.

### **Qualifications of the Position Include:**

- Degree in the environment, health and safety field or sciences background. Preference given to Occupational Health and Safety Management certification.
- A clear and demonstrated understanding of Ontario environmental, health and safety requirements gained through 3 to 5 years experience in an industrial setting.
- OSHA and EPA knowledge an asset.
- Highly proficient in Windows, Word, Excel and PowerPoint.
- Well developed organizational and communication skills.
- Demonstrated leadership skills coupled with strong interpersonal skills.
- Proven project management skills with the ability to scope, manage and execute projects.
- Ability to travel and work in North America approximately 40% of time.
